Dear Sir:

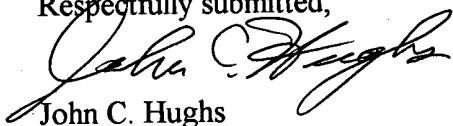

PETITION FOR COLOR DRAWINGS

Pursuant to 37 CFR § 1.84 the applicants hereby petition, for the inclusion of Figs. 12, 13, 14, and 15 as color drawings in the above named non-provisional patent application, and for these enclosed Figs. 12, 13, 14, and 15 to be published with the publication of this application, as provided by MPEP § 608.02.

The support for this petition comes from the fact that the Figs. 12, 13, 14, and 15 are or contain photomicrographs that are necessary as the only practical medium to disclose the subject matter sought to be patented.

Further in support of this petition is the enclosure of the required petition fees of \$130.00, three (3) sets of color drawings, and the required paragraph in the brief description of the drawing section of the above named non-provisional application.

Respectfully submitted,

John C. Hughs
